# UC-II® Helps Maintain Joint Health.

Give dogs and horses a new leash on life...

## Small Dose

fits into multi-ingredient formulations.

## Sourced and made in the U.S.

a patented, chicken product meal containing naturally occurring undenatured type II collagen.

## Palatable

neutral ingredient flavor does not interfere with finished product flavor.

## Studied in companion animals

published peer-reviewed safety and efficacy research in dogs and horses demonstrates superiority over glucosamine + chondroitin.

## Works differently than other joint-health ingredients

unique mechanism of action addresses joint mobility and flexibility at the source.

## Regulatory acceptance in the animal market

meets AAFCO definition for approved ingredient.

Give them  
UC-II®.

Include UC-II® in  
Your Companion  
Animal Products.

**UC-II®**  
**FOR JOINT HEALTH**

Research-based ingredients. Uncompromised quality. Trusted.
